

Cablestar-EX™ Shades

Cablestar-EX solar shades are designed and engineered to be a highly versatile folding shade system used to cover horizontal and sloped areas. The fabric folds like a Roman Shade when retracted. The cables retract the shade causing the shade to fold onto itself as the shade closes. Horizontal lifting cables run from the bottom of the shade through a series of pulleys and cable guides.

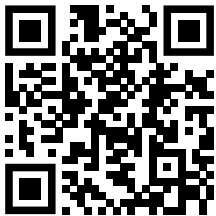

Motorized controls ensure smooth, convenient operation. A wide selection of fabric choices offer color, texture, view and performance.

- Daytime privacy
- Reduce heat and glare
- Reduce fading of outdoor furniture

Fabritec's Outdoor Solutions

[Phifer, Mermet, Twitchell & Sunbrella Fabrics]

Outdoor Solutions

FABRITEC'S OUTDOOR SOLUTIONS allows you to create an entire outdoor living space that is perfect for your enjoyment all year round. If you have a patio, balcony, porch, additional dwelling unit or other exterior space—outdoor shades can be a huge help. They create a perfect, restful retreat outside your home.

We have *two versions* of outdoor shades to choose from—**Rollstar-EX™**, and **Cablestar-EX™**. These shades block the sun and heat in the hot summer months and protect you from strong winds and the cold in the cooler months.

Our outdoor solar shades are manufactured with the very best operating systems in the industry, as well as one of the largest offerings of exterior shade materials—everything from solar screens to decorative shade cloths. We offer extraordinary service, high quality products, fast turnaround times and services that fairly reflect the value we provide, with innovative new products on a regular basis. Outdoor solar shades are *now trending—get ready for summer time!*

THE PERFECT SOLUTION TO YOUR OUTDOOR LIVING SPACES!

Rollstar-EX solar shades are even more effective at reducing ultraviolet radiation than indoor shades. A vertical shade employing roll-shade technology and held in place with stainless steel cables on either side. Manual or motorized controls ensure smooth, convenient operation. Compact when drawn up, requiring little space when the shade is up.

The perfect addition to a sunny room. A wide selection of fabric choices offer color, texture, view and performance.

- Daytime privacy
- Reduce heat and glare
- Reduce fading of outdoor furniture

Rollstar-EX™ Overview

Our Rollstar-EX Solar Shades are designed specifically and engineered for outdoor use. They reduce heat and glare, fading of furniture and carpet, and in general greatly reduce all the damage, discomfort, and annoyance caused by the sun.

Refer to our website, www.fabritecdesigns.com or our **Pricing Book** for *suitable outdoor fabrics*.

CABLE MOUNTS & HEADBOXES

Manual or motorized controls ensure smooth, convenient operation. Headboxes protect the shade and the lifting mechanisms and add a finished look. Stainless steel mounted cables attach to the walls or floor.
